Source Bridge Solutions

A DEHU GROUP COMPANY

**Your Industrial Partner for Manufacturing,
Fabrication & Sourcing.**

About Us

Source Bridge Solutions is a **Dehu Group** company delivering manufacturing, fabrication, engineering product supply, and industrial sourcing solutions for a wide range of process and manufacturing industries.

Originally established with a focus on procurement services, SourceBridge has now expanded into a 5500 sq. ft. manufacturing facility to serve industries requiring general fabrication, steel products, equipment supports, utility items, structural works, and customized engineering products.

Backed by the technical expertise, supplier network, and industrial experience of the Dehu Group, we bridge the gap between manufacturing, procurement, and project execution. Our role is to help industries source, fabricate, and deliver the right products with reliable quality, competitive pricing, and faster turnaround.

We serve customers across sectors such as pharma, chemicals, food processing, cement, sugar, steel, power, textile, paper, FMCG, agro products, oil & gas, rubber, and general engineering industries.

Our Core Strength

Manufacturing + Sourcing + Industrial Solutions

VISION

To become a trusted industrial solutions partner that bridges manufacturing, fabrication, procurement, and supply-chain support for industries across India and global markets.

We aim to provide reliable steel products, engineering components, fabricated structures, and sourcing support that help industries improve productivity, reduce procurement complexity, and execute projects efficiently.

MISSION

01

MANUFACTURING EXCELLENCE

To manufacture high-quality fabricated steel products, structures, utility items, equipment supports, platforms, tanks, ducts, and customized industrial products as per client requirements.

02

INDUSTRY-WISE SOLUTIONS

To serve multiple industrial sectors with application-specific engineering products, fabrication support, and sourcing solutions.

03

PROCUREMENT & SOURCING SUPPORT

To help customers source engineering goods, raw materials, bought-out items, MRO products, and project materials through reliable vendor networks.

04

GROUP-BACKED TECHNICAL CAPABILITY

To leverage Dehu Group's experience in IBR, Non-IBR, boiler, pressure parts, heavy fabrication, EPC, and industrial engineering solutions for wider customer benefit.

Key Capabilities

SOURCE BRIDGE SOLUTIONS DELIVERS PRACTICAL INDUSTRIAL SUPPORT THROUGH MANUFACTURING, FABRICATION, AND SOURCING.

01

GENERAL FABRICATION

Platforms, ladders, handrails, structural frames, base frames, sheds, supports, trolleys, racks, guards, covers, and customized steel products.

02

INDUSTRIAL PRODUCTS

MS, SS, GI, and structural steel fabrication for process plants, utilities, production areas, and maintenance requirements.

03

UTILITY EQUIPMENTS

Storage tanks, feed tanks, blowdown tanks, small vessels, hoppers, bins, trays, ducts, chimneys, and process utility items as per application.

04

PRODUCT SOURCING

Sourcing of bought-out items, MRO spares, pipes, tubes, valves, fittings, flanges, fasteners, motors, pumps, instruments, consumables, and project materials.

05

TECHNICAL SUPPORT

Access to group-level expertise in boilers, pressure parts, heat exchangers, economisers, headers, waterwall panels, air preheaters, dampers, expansion bellows, and fabricated equipment.

06

PROJECT & MAINTENANCE

Support for fabrication jobs, plant modifications, shutdown requirements, replacement spares, and site coordination.

PROBLEMS WE SOLVE

INDUSTRIAL PROCUREMENT & FABRICATION CHALLENGES WE SOLVE

Industries often face delays and cost overruns because fabrication, bought-out items, vendor coordination, and technical sourcing are handled separately. Source Bridge brings these requirements under one practical solution model.

01

FRAGMENTED VENDOR BASE

Customers need to coordinate with multiple vendors for fabrication, steel products, bought-out items, spares, and services.

02

DELAYED PROJECT PROCUREMENT

Industrial projects and maintenance jobs often get delayed due to material availability, vendor follow-up, and unclear technical coordination.

03

LACK OF RELIABLE FABRICATION SUPPORT

Small and medium requirements often do not receive proper attention from large fabricators, leading to inconsistent quality and delivery delays.

04

DIFFICULTY IN SOURCING

Industries require many non-standard items such as custom spares, structural components, steel items, utilities, and imported or hard-to-find products.

05

HIGH COST DUE TO LOW VOLUME BUYING

Individual companies may not always get competitive pricing for materials, components, and MRO requirements.

Our Solutions

OUR INTEGRATED SOLUTION

Source Bridge Solutions combines in-house fabrication capability, Dehu Group engineering strength, and procurement network support to provide a single-window solution for industrial customers.

MANUFACTURE WHAT YOU NEED

We manufacture general fabrication and steel products such as structures, supports, platforms, tanks, ducts, frames, racks, trolleys, guards, and customized plant utility items.

SOURCE WHAT YOU REQUIRE

We help customers source engineering products, raw materials, MRO items, bought-out components, project materials, and specialized industrial products through our vendor network.

SUPPORT WITH GROUP EXPERTISE

As part of Dehu Group, Source Bridge can extend support for industries requiring boiler-related items, IBR/Non-IBR products, pressure parts, pressure vessels, heat exchangers, boiler spares, structural works, and heavy engineering requirements. Dehu's brochure specifically highlights pressure parts, boiler and power plant EPC, heavy engineering, services, and trading as business verticals.

DELIVER INDUSTRY-SPECIFIC VALUE

Our approach is not limited to one product. We understand the needs of different industries and provide suitable products, fabrication, sourcing, and support accordingly.

INDUSTRY-WISE SOLUTIONS & PRODUCTS

Source Bridge Solutions serves industries with customized steel products, fabrication, sourcing, and engineering support.

PHARMA INDUSTRY

SS/MS platforms, clean-area supports, utility piping supports, equipment skids, trolleys, racks, safety guards, access ladders, maintenance platforms, tanks, ducting, and sourced items such as valves, fittings, pumps, instruments, and utility spares.

CHEMICAL PLANTS

Storage tanks, process tanks, pipe racks, structural supports, ducts, chimneys, scrubber supports, platforms, ladders, handrails, pressure/non-pressure fabrication, flanges, valves, pumps, gaskets, fasteners, and maintenance spares.

SUGAR PLANTS & DISTILLERIES

Boiler spares, bagasse handling structures, conveyors, platforms, tanks, ducts, hoppers, economiser-related spares, dampers, expansion bellows, air preheater items, structural fabrication, and shutdown support. Dehu's team experience includes power plants, sugar plants, distilleries, engineering, construction, operation, and maintenance.

CEMENT PLANTS

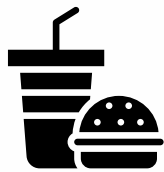

Chutes, hoppers, ducts, bag filter supports, conveyor structures, platforms, ladders, silos, maintenance frames, wear plates, access structures, fans and duct supports, base frames, and sourced MRO spares.

INDUSTRY-WISE SOLUTIONS & PRODUCTS

Food & Beverages / FMCG

SS tables, trolleys, racks, platforms, machine guards, utility supports, tanks, trays, conveyor supports, packaging line structures, hygiene-friendly fabrication, spare sourcing, and plant maintenance items.

Steel Plants

Heavy-duty platforms, walkways, ladders, structural frames, cable tray supports, pipe supports, ducts, hoppers, bins, guards, base frames, maintenance stands, fabricated spares, and general engineering items.

Power Plants

Boiler pressure parts, non-pressure parts, ducts, dampers, expansion bellows, air preheater items, tanks, headers, coils, platforms, structures, boiler/ESP spares, and MRO sourcing. Dehu's brochure lists boilers, economisers, headers, waterwall panels, superheater coils, bank tubes, boiler bends, APH assemblies, pressure vessels, tanks, expansion joints, dampers, and boiler/ESP spares among its accomplishments and product range.

Textile Industry

Machine platforms, ducting, humidification supports, utility pipe supports, racks, trolleys, safety guards, tanks, maintenance structures, fabricated spares, and sourced items such as valves, pumps, motors, bearings, and fasteners.

INDUSTRY-WISE SOLUTIONS & PRODUCTS

PAPER INDUSTRY

Pulp and process tanks, platforms, ladders, ducts, hoppers, pipe supports, machine guards, structural frames, boiler spares, heat exchanger support items, utility fabrication, and maintenance spares.

AGRO PRODUCTS & PROCESSING

Grain handling structures, hoppers, bins, conveyors, storage racks, platforms, utility tanks, dryer supports, equipment frames, fabrication for processing lines, and sourcing of motors, gearboxes, bearings, and general plant items.

OIL & GAS

Skids, structural supports, pipe supports, platforms, ladders, base frames, ducting, utility fabrication, tanks, pressure/non-pressure fabricated items, valves, flanges, fittings, gaskets, fasteners, and specialized bought-out items through vendor networks.

RUBBER & PLASTIC INDUSTRY

Mixer platforms, machine guards, ducting, cooling line supports, tanks, fabricated frames, storage racks, utility supports, trolleys, maintenance platforms, and sourcing of plant spares, pumps, valves, motors, and consumables.

GENERAL ENGINEERING & OTHER INDUSTRIES

Customized fabrication, job work, structural steel products, industrial furniture, material handling supports, project-based sourcing, maintenance spares, and plant utility solutions.

Product Portfolio

MANUFACTURED PRODUCTS

- Structural steel fabrication
- Platforms, ladders, handrails, and walkways
- Equipment support structures
- Pipe supports and cable tray supports
- Base frames and machine frames
- Storage tanks and utility tanks
- Ducts, chimneys, hoppers, and chutes
- Trolleys, racks, bins, trays, and guards
- Sheds, mezzanine structures, and shop-floor fabrication
- Customized MS/SS/GI products

GROUP-BACKED ENGINEERING PRODUCTS

- Boiler spares and pressure parts
- Economiser coils and headers
- Waterwall and membrane panels
- Superheater coils and bed coils
- Air preheaters and heat exchangers
- Dampers and expansion bellows
- Pressure vessels and tanks
- Boiler/ESP spares and utility equipment

SOURCED PRODUCTS

- Pipes, tubes, plates, structural steel, and raw materials
- Valves, flanges, fittings, gaskets, fasteners
- Pumps, motors, gearboxes, bearings
- Electrical and instrumentation items
- MRO and plant maintenance consumables
- Project-specific bought-out materials

OUR PRODUCT CATALOG

MANUFACTURED. ENGINEERED. SOURCED.

MANUFACTURED PRODUCTS

Structural Steel Fabrication

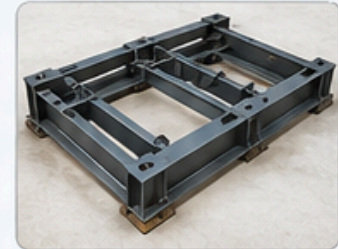

Platforms, Ladders, Handrails & Walkways

Equipment Support Structures

Pipe Supports & Cable Tray Supports

Base Frames & Machine Frames

Storage Tanks & Utility Tanks

Ducts, Chimneys, Hoppers & Chutes

Trolleys, Racks, Bins, Trays & Guards

Sheds, Mezzanine Structures & Shop-floor Fabrication

Customized MS / SS / GI Products

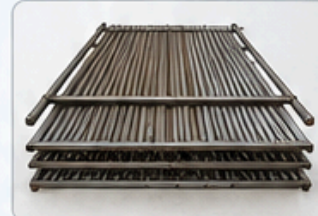

GROUP-BACKED ENGINEERING PRODUCTS

Boiler Spares & Pressure Parts

Economiser Coils & Headers

Waterwall & Membrane Panels

Superheater Coils & Bed Coils

Air Preheaters & Heat Exchangers

Dampers & Expansion Bellows

Pressure Vessels & Tanks

Boiler / ESP Spares & Utility Equipment

SOURCED PRODUCTS

Pipes, Tubes, Plates, Structural Steel & Raw Materials

Valves, Flanges, Fittings, Gaskets, Fasteners

Pumps, Motors, Gearboxes, Bearings

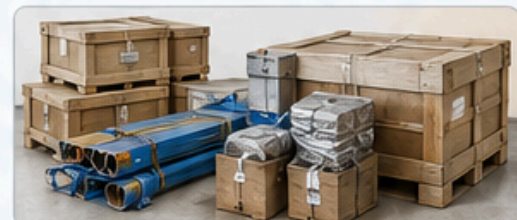

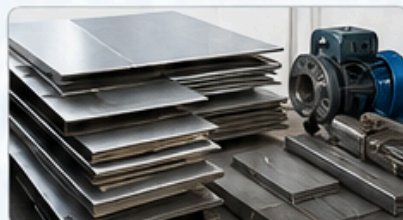

Electrical & Instrumentation Items

MRO & Plant Maintenance Consumables

Project-Specific Bought-out Materials

QUALITY ASSURED
Strict quality control at every stage

CUSTOM SOLUTIONS
Tailored to your industry needs

TIMELY DELIVERY
On-time, every time across India

ONE-STOP SOLUTION
Manufacturing, Engineering & Sourcing under one roof

How We Work

01 – REQUIREMENT UNDERSTANDING

We study the customer's industry, application, drawings, specifications, urgency, and budget.

02 – MANUFACTURING OR SOURCING ROUTE

Based on the requirement, we either manufacture in-house, execute through Dehu Group capability, or source from reliable vendors.

03 – TECHNICAL COORDINATION

We coordinate drawings, dimensions, materials, quality requirements, inspection needs, and delivery timelines.

04 – FABRICATION & QUALITY CONTROL

Products are manufactured with practical shop-floor control, welding/fabrication standards, and customer-specific requirements.

05 – DELIVERY & SUPPORT

We support dispatch, logistics coordination, documentation, and post-supply assistance.

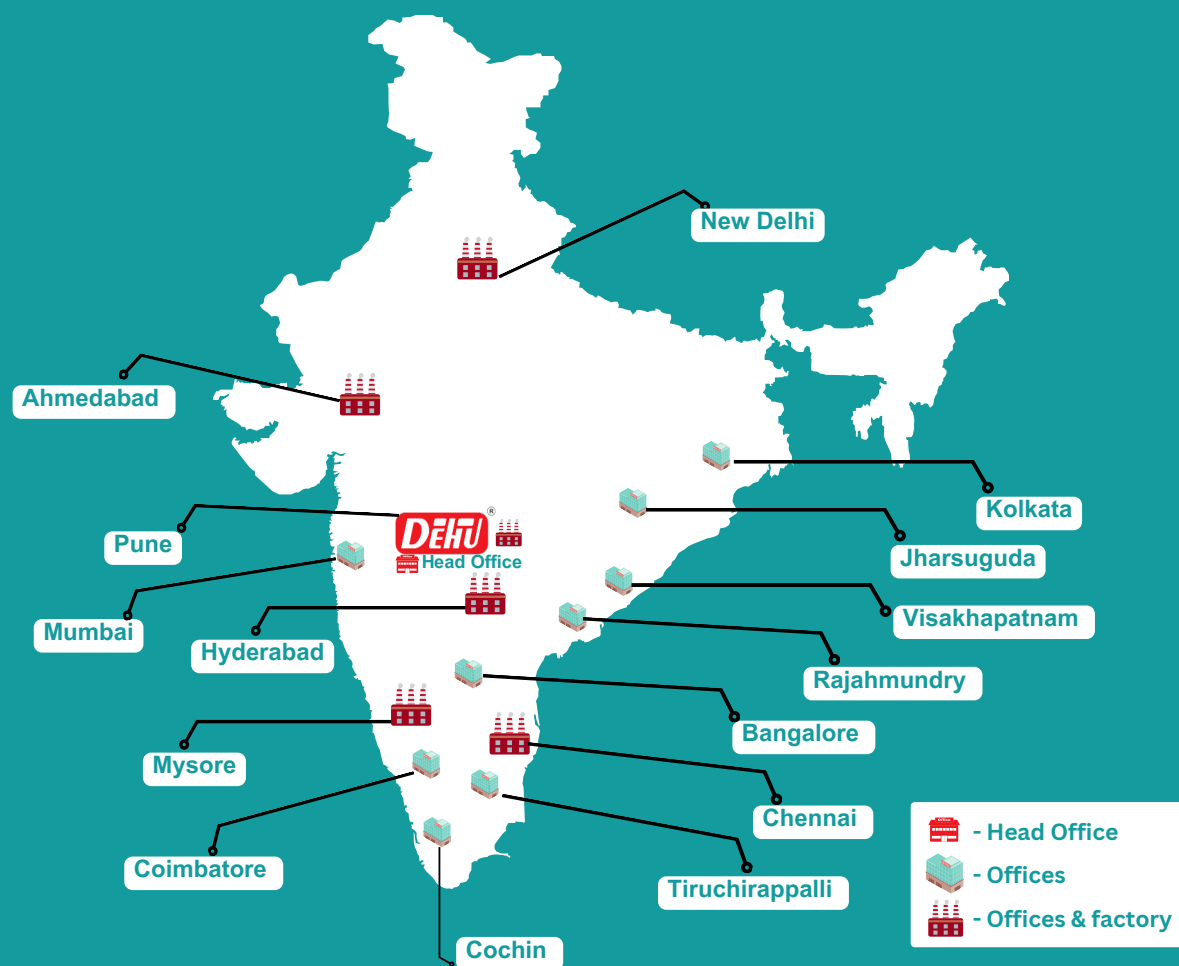

WHY CHOOSE SOURCE BRIDGE

- One partner for manufacturing and sourcing.
- 5500 sq. ft. fabrication facility.
- Backed by Dehu Group's engineering expertise.
- Ability to serve multiple industries.
- Support for both standard and customized products
- Practical solutions for project, maintenance, and plant requirements.
- Access to wider vendor and technical network.
- Capability to support IBR, Non-IBR, pressure, non-pressure, and general fabrication requirements through group strength.
